

Exam Appointment: Oracle Certification Online Exams, Oracle Testing Center (OTC)

Duration: 2 Hours

What you will learn

This allows for pre-registration in one non-cloud Oracle Certification Program online, non-proctored exam delivered at an Oracle University location. The list of exams which qualify for the exam event are listed in the Course Topics tab.

Check the Oracle Certification Retirements page to ensure that your desired exam is not set to retire before you plan to take it. You can also subscribe to the Oracle Certification Blog to stay up-to-date on new and retiring exams and other announcements that affect your certification.

Not all OU locations offer certification exams; please verify that a location is accessible to you before registering.

Pearson VUE Web Account Setup Required 72 Hours Prior to Exam Appointment

Existing Users

There is no required action at this time.
Simply log in to your Pearson VUE account when you arrive at the test center to access your exam.

New Users

If you're a new user, and do not yet have a Pearson VUE web account, please visit Pearson VUE and follow the steps to create your account.
Please set up your web account at least 72 hours prior to your appointment time.
